

LEGACY 201-I 100 SILENCER

Industrial Grade - 13 to 19 dB(A)

APPLICATION

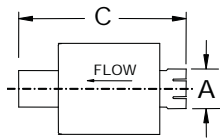

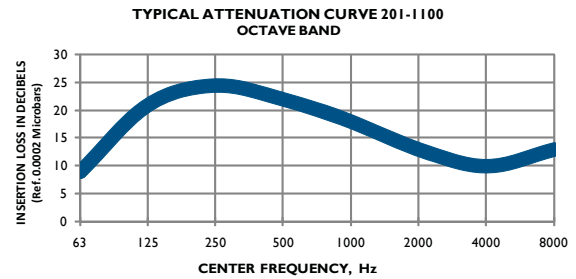

A compact weather muffler for areas where high quality silencing is not required.

CONSTRUCTION

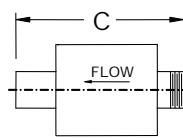

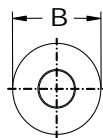

Heavy duty carbon steel construction. Unique design allows rain entering the outlet to drain out the bottom without entering the manifold. Call factory for details.

FINISH AND OPTIONAL MATERIALS

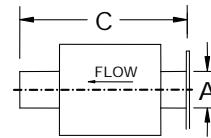

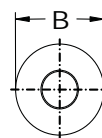

High heat powder coat on all sizes. High heat black paint available upon request.

FLANGED STYLE

Part Number	A Inlet Size	B Diameter	C OAL	WT
201-11015	1.5	5	11	12
201-1102	2	6	12	13
201-11025	2.5	8	13.5	16
201-1103	3	8	16	16
201-11035	3.5	10	17	19
201-1104	4	10	19	22
201-1105	5	10	21	24
201-1106	6	12	23	27
201-1108	8	16	28	45

All spatial dimensions are in inches. Inlet sizes available up to 30.0 inches.

Additional connections available.

Place connection between family and model. Example: 201-N-11035; 201-C-1104.

All weights are in pounds. All weights are approximate.

Use diameter to find bracket sizes. Example: 201-1108 (16" dia) would require 28-1600 brackets (or similar 29 brackets).
